

Prairie Flower no. 3

CORRECTION

14. For the leaf unit, gather (1) J-rectangle and (2) O-squares.
Using the SNF method, sew each O-square on opposite corners of the J-rectangle as shown. The unit should measure $2\frac{1}{2}'' \times 5''$. Repeat on a second J-rectangle noting the SNF of the O-squares will be in opposite corners. Make (2) leaf units from each of the (3) green fabrics.
