Class 15

Class 15 prewound bobbins hold 100 yards (91m) of 100% Egyptian cotton thread wound in a reusable plastic bobbin, which means there is no glue or wax holding it together (which also makes for happy machines)! Prewound bobbins are a fantastic choice because they come wound uniformly meaning you will get more consistency in all your stitches, which is especially noticeable when doing embroidery. They also come wound with a higher density of thread than when you wind your own bobbins on a domestic machine.

- 12 bobbins per pack
- MOQ: sold in packs of 5

B Size

B Size prewound bobbins fit all Bernina® machines and use 60wt 100% Egyptian cotton thread in a reusable plastic bobbin. Each holds 165 yards (150m) of fine, strong cotton for smooth tension and precise stitching. These B Size bobbins come prewound for convenience, reducing bulk and improving stitch quality.

- A tube of 5 keeps them organized and ready to use.
- MOQ: sold in packs of 5.
