About the Line

When I was growing up, Philip Pullman's books really sparked my imagination. Not only did I become gripped by the creatures and landscapes of the North Pole but I was also fascinated by the very existence of the aurora borealis.

Through the lens of a young, cute style, *Northern Lights* is a collection full of arctic creatures. Polar bears, penguins and reindeer are depicted amidst the magic of waves of light, the flicker of snowflakes and the never-ending polar nights.

Cold hues take over this collection: from an ocean navy to the cool greys of snow and clouds, the turquoise of the aurora and the aqua blue that we find deep in the glaciers.

The whole collection conjures a scenery that I know my younger self would have loved to be wrapped up in.
