Book Published by It's Sew Emma

Travel back to a gentler era with the Prim & Proper Book by Lori Holt of Bee in my Bonnet Co. From a time when handwork made a home, Lori pulls beloved elements from vintage medallion applique and cross stitch to create an exquisite sampler quilt. The quilt features an elaborate vintage vase holding a sweet floral arrangement, surrounded by a colorful array of cross-stitches honoring a sister art. In addition to the sampler quilt, the book also includes three coordinating runners and two pillows, all made to look unique with special settings.
