## About the Line

During the Great Depression of the 1930's there was a great revival of quilting. The hard times brought a strong desire for women to socialize. Quilting became a popular way for women to fulfill their desire to be creative while still making something practical for their families. To keep expenses to a minimum, women would find quilting materials from many different sources such as sewing scraps, out-grown clothing, and feed sacks.

**Storytime 30's** by The RBD Designers features bright, happy colors and designs that bring a little remembrance of an era that looked forward to better times.
