About the Line

Several years ago I released my Vintage Happy fabric collection to celebrate prints and projects from days gone by. After all… vintage style is what I love to do! Lately I have been wanting to add more prints and colors to the original collection and those changes are now compiled into Vintage Happy 2!

I have drawn inspiration for the prints and colors from the fabrics that my grandma and her sisters used in their quilts and clothing. Inspiration has also come from grandma’s weekly wash days.

Every Monday you could always find grandma with her apron tied on, doing the laundry and mending clothes. All of the freshly washed clothes were hung neatly on the clothesline to dry. I loved watching them blow back and forth in the breeze, especially the dresses and aprons that she made, oh!… the charming prints and colors they had back then! After the clothes were dry she brought them all in for a good ironing. During this process she would have bread rising on the stovetop and dinner in the oven.

Vintage Happy 2 is about the love and care that grandma put into making a house a home and once again, I hope that you enjoy using this collection to create quilts and projects from days gone by!
